Additional comments:

Michael was an excellent intern in my COUC 505 course this semester. We met weekly in supervision and he was able to ask questions and provide valuable input and information. He has been very responsible and attentive to the supervisory aspect of this course. In class, he has done a nice job of adding in invaluable input and insight into the class discussions. He also has been able to provide solid feedback and encouragement to students as they practiced their foundational skills. He assisted with triad supervision in class as well. When he lectured, he was well prepared and he was able to effectively articulate the information to the class. I feel he has done an amazing job during this internship experience.
