Comments: Professor Scoville was very helpful throughout the duration of class. I struggled with him in the beginning as he cut me off each time I attempted to speak and spent about 20 minutes of class discussing his camcorder while there was a multitude of questions, however, I talk this up to nervousness in the beginning of the semester, he has grown to be a favorite teacher of mine and I really enjoy his approach to counseling. I believe that professor Scoville possesses a gift in the way that he interacts with others as he uses empathy to show how much he truly cares what we are talking about. I would love to have another class with him.

Additional comments:

Professor Scoville was great to work with this semester, he connected well with the students and professors. He collaborated with Professor Meyer as he planned and co-taught class with her. He presented professionally and was able to offer insightful clinical feedback. He was able to self-reflect and look at ways he could improve his teaching style and I appreciated his openness to feedback and growth. This semester presented personal challenges, but he learned a valuable area for growth is balancing his personal and professional life moving forward. Mike shares a gentle spirit, and the students responded well to his demeanor; I enjoyed our collaboration this semester and wish him well in future endeavors.
